

Queen Fiamuin's Favor

Elements

Fabric: Light Gray similar to DMC 453

Pattern: F, sword, and blood drop
- Red DMC 321, or other medium in a matching red.

Finished Size: 5" Wide x 9.5" Long (Includes 4.5" Beltloop)

Total Image Size: About 4" (10.2cm) Wide and 4" (10.2cm) Height

Favor Blank:

This pattern uses a 1/2" (1.3cm) hem allowance.

Cut: 15" (38.1cm) Long by 6" (15.2cm) Wide.

1. Fold in 1/2" (1.3cm) around 3 edges (leave one end out), and iron.
2. Fold in 1/4" (0.6cm) under the fold and sew.

3. On the last end fold in 1/4" (0.6cm), iron and sew hem with one fold.
4. Facing the hems together on the back side, fold the end with single fold edge down 4.5" (11.4cm) and sew across the width of the favor. Reinforce each side with a few extra stitches.
5. Using the area below the beltloop stitch line, fold the bottom end up to the stitch line, mark the fold with a crease or removable mark, and unfold. This is your vertical center.
6. Fold the favor from side to side and mark the center the same way as in step 4.
7. Print the image (to scale below) trace it onto the favor lining up the centers of the pattern and the cloth. There should be about 1/2" space on either side of the image.
8. Apply the image in whichever method you chose.
